

# Customized care for an enhanced journey

**VELYS™ Patient Path is your personalized care platform that:**

- Seamlessly connects you, your care team, and patients
- Enhances the experience—from surgery readiness through recovery

# A connected care experience from surgery readiness through recovery

## VELYS Patient Path provides:

### Personalized patient support

Integrates communication, guidance, and support between patients and care teams before and after surgery, including action plans, reminders, education, progress monitoring, and direct feedback.

### Workflow efficiency solutions

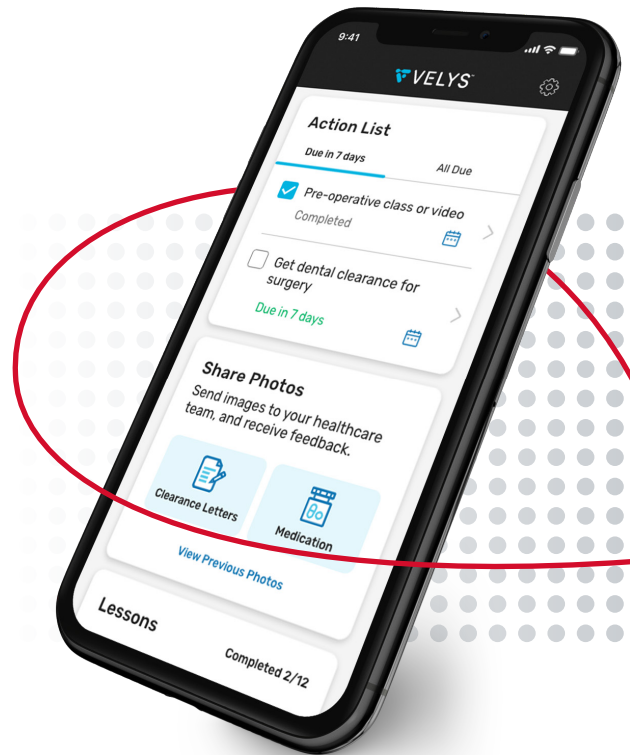

Coordinates information from multiple sources to improve case management, resources, and workflow efficiencies without double entry of case information.

### Integrated recovery tools<sup>1-3</sup>

Allows the collection and analysis of patient-generated data, which can help improve PROMS\* and return to activity.

\*Patient Reported Outcome Measures

**Decision to do surgery**

**Pre-op data**

**Intra-op robotic-assisted surgery**

**Post-op data**

**Full recovery**
