

Agenda

Tuesday, April 6 | 8:00 – 10:30 pm CEST – Europe, Middle East, and Africa (EMEA)

All Attendees

Welcome to the Summit! | Tuesday, April 6 | 8:00 pm CEST

Aldo Denti – Company Group Chairman

Welcome to Trauma, Extremities, CMF and Animal Health Session | Tuesday, April 6 | 8:00 pm - 8:10 pm CEST

Harry Hall I.V – President, Trauma, Extremities, CMF and Animal Health

Sharrolyn Josse, WW President, VELYS™ Digital Surgery, Capital

The Future of Trauma Care is Digital | Tuesday, April 6 | 8:10 pm - 8:30 pm CEST

The world continues to change rapidly, especially in the area of digital technologies. Data and the insights generated are changing our world and healthcare is no exception. We know that the future of Trauma is digital. In this session we will sit down with some leading orthopedic Trauma surgeons to discuss how digital innovations will shape, impact and raise the standard of care before, during and after surgery.

Dr. Florian Gebhard, Germany, Dr. Toni McLaurin, USA, Dr. Mark Lee, USA, Dr. Charisse Sparks, USA

Clinical Panel Discussions by Specialty: 8:35pm - 9:20pm

Craniomaxillofacial - Choose 1 Session:

The Future is Now - 3D Digital Surgical Planning in Orthognathic Surgery

Panel participants will talk about how digital technology and personalized implants have impacted how they practice orthognathic surgery. Outcome accuracy and predictability, rethinking of the procedure, scalability of technology to every case and the impact on aesthetics will all be covered during this session.

Dr. Alexander Schramm, Germany, Dr. Edward Ellis, USA, Dr. Derek Steinbacher, USA, Dr. Thomas Kofod, Denmark

The Future of Cranioplasty and Duraplasty

Our panel of experts will discuss current and future trends in neurosurgery including multidisciplinary care, Neuroplastics, and innovations in dura repair materials and cranial implants.

Dr. Chad Gordon, USA, Dr. Marco Lee, USA, Dr. Yuanli Zhao, China, Dr. Eve Tsai, Canada

Trauma, Extremities - Choose 1 Session:

Advanced Nailing System: Stability Solutions for the Simple to Complex

Tune in to this session to hear thought leaders around the world discuss the unmet needs and evolving clinical challenges of geriatric hip fractures, and the changing patient demographics of shaft fractures with increasing number of high energy fractures in the elderly. In this session, you will also hear more about the new Advanced Nailing System from Depuy Synthes.

Dr. Mike Gardner, USA, Dr. Matt Graves, USA, Dr. Mark Lee, USA, Dr. Martin Hessman, Germany, Dr. Chris Finkemeier, USA

Shifting Treatment Paradigms in Ankle Injuries

Three experts will discuss their clinical cases and debate about treatment concepts for ankle syndesmosis injury i.e. flexible versus static fixation.

Dr. Samuel Adams, USA, Dr. Michael Swords, USA, Dr. Tim Schepers, Netherlands

When to Repair or Replace the Radial Head – Challenging Elbow Cases

Radial head fractures are common injuries of the elbow and there are many clinical challenges when treating. Two experts will present the aspects that go into the decision to repair or replace the radial head and discuss the key factors for long-term success.

Dr. Jerry Huang, USA, Dr. Matthew Smith, USA

Lean Management in Orthopaedics - A Practical Example

Initially developed by the automotive industry, lean principles are making their way into the healthcare industry. But what does adopting a lean management practice mean for an orthopaedic department? Tune into this session to hear more about DePuy Synthes' lean management program 4S.

Dr. Julio Ribes Iborra, Spain

Veterinary Animal Health:

Bridging Veterinary and Human Orthopedics - Crescentic Osteotomies: Application in Juxta-Articular Deformities

In this session, Mike Kowaleski, DVM will discuss the challenges associated with treating juxta-articular deformities when using linear osteotomies. Learn what a veterinary approach can teach us regarding radial (crescentic) osteotomies.

Dr. Michael Kowaleski, USA

Agenda

Tuesday, April 6 | 8:00 – 10:30 pm CEST – Europe, Middle East, and Africa (EMEA)

INNOVATE with US! 9:30 pm - 10:30pm

Choose (1) 20 - 60 mins (All Specialties):

Your Role in Trauma's Digital Future - External Innovation

The most impactful innovations come from the observations and insights of those closest to the problems to be solved. To fully address the digital future of Trauma, requires partnership with surgeons, care teams and patients. In this session we will sit down with innovation leaders to discuss Johnson & Johnson's approach to driving external innovation and process of taking an insight from a napkin sketch to commercialized solution.

Global DePuy Synthes

Open Audience

The Future of 3D Point of Care Printing

Our panel of experts will talk about current and future applications of 3D Printing, ranging from CMF and Orthopaedic uses, to advanced cases such as complex facial and limb transplantation, as well as discussing the role of the industry in this developing field.

Dr. Frederick Verstreken (Belgium), Dr. Florian Thieringer (Switzerland), Dr. Jonathan Morris, USA, Dr. Eduardo Rodriguez, USA

Your Role in Trauma's Digital Future - Give Us Feedback!

We want your feedback! This session is an opportunity to "peek under the hood" at some of our innovation concepts. Join us for an interactive session where you will have an opportunity to shape our thinking on our future innovation!
