

2023 Bariatric Reimbursement Guide

The information contained in this document is provided for informational purposes only and represents no statement, promise, or guarantee by Ethicon concerning levels of reimbursement, payment, or charge. Similarly, all CPT, ICD-10 and HCPCS codes are supplied for informational purposes only and represent no statement, promise, or guarantee by Ethicon that these codes will be appropriate or that reimbursement will be made. It is not intended to increase or maximize reimbursement by any payor. We strongly recommend that you consult your payor organization with regard to its reimbursement policies.

Finding the appropriate ICD-10-PCS Code¹

STEP 1: Select the characters below that best describe the procedure and associated body part.

Procedure Code	Description (Includes Body Part)	Procedure Code	Description (Includes Body Part)
0D16	Bypass / Stomach	3E0G	Introduction / Upper GI
0D19	Bypass / Duodenum	BD11	Fluoroscopy / Esophagus
0D2W	Device Change, Peritoneum	BD12	Fluoroscopy / Stomach
0DB6	Excision / Stomach	BD13	Fluoroscopy / Small Bowel
0DB9	Excision / Duodenum	BD14	Fluoroscopy / Colon
0DP6	Removal / Stomach	BD15	Fluoroscopy / Upper GI
0DQ6	Repair / Stomach	BD16	Fluoroscopy / Upper GI and Small Bowel
0DU6	Supplement / Stomach	BD19	Fluoroscopy / Duodenum
0DV6	Restriction / Stomach	BF0C	Plain Radiography / Hepatobiliary System, All
0DW6	Revision / Stomach	BF18	Fluoroscopy / Pancreatic Ducts
0F19	Bypass / Common Bile Duct	BW00	Plain Radiography of Abdomen
0W2G	Device Change, Peritoneal Cavity	BW01	Plain Radiography of Abdomen and Pelvis
		BW11	Fluoroscopy / Abdomen and Pelvis

STEP 2: Using your coding reference book or software, select the 3 characters that best describe the associated approach, device and qualifier in the respective order.

Given the large number of individual procedure codes available for bariatric procedures, please refer to your coding reference book or coding software to look up the associated Approach, Device and Qualifier that best align to the procedure code and body part you identified in Step 1 above.

STEP 3: Combine the characters from Steps 1 and 2 in the respective order from left to right. This is your ICD-10-PCS Code.

For example, the code for Excision of Stomach, Percutaneous Endoscopic Approach (0DB64Z3) would be created in the steps below:

Example: STEP 1: 0DB6 + STEP 2: Approach _4 + Device _Z + Qualifier _3 = STEP 3: 0DB64Z3

Surgeon CPT, APC & DRG Codes

Surgeon CPT Code ²	Procedure	Surgeon Nat Average Medicare Payment ³
Laparoscopic Gastric Bypass		
43644	Laparoscopy, surgical, gastric restrictive procedure; with gastric bypass and Roux-en-Y gastroenterostomy (Roux limb 150cm or less)	\$ 1,756
43645	Laparoscopy, surgical, gastric restrictive procedure; with gastric bypass and small intestine reconstruction to limit absorption	\$ 1,865
Laparoscopic Gastric Banding		
43770	Laparoscopy, surgical, gastric restrictive procedure: placement of adjustable gastric restrictive device (gastric band and subcutaneous port components) (For individual component placement, report 43770 with modifier 52)	\$ 1,142
43771	Laparoscopy, surgical, gastric restrictive procedure; revision of adjustable gastric restrictive device component only	\$ 1,296
43772	Laparoscopy, surgical, gastric restrictive procedure; removal of adjustable gastric restrictive device component only	\$ 961
43773	Laparoscopy, surgical, gastric restrictive procedure; removal and replacement of adjustable gastric restrictive device component only	\$ 1,296
43774	Laparoscopy, surgical, gastric restrictive procedure; removal of adjustable gastric restrictive device and subcutaneous port components	\$ 974
Laparoscopic Sleeve Gastrectomy		
43775	Laparoscopy, surgical, gastric restrictive procedure; longitudinal gastrectomy (i.e., sleeve gastrectomy)	\$ 1,118
Miscellaneous Gastric Procedure (including revisions)		
43659	Unlisted laparoscopy procedure, stomach	Carrier Priced
43842	Gastric restrictive procedure, without gastric bypass, for morbid obesity; vertical-banded gastroplasty	\$ 1,162
43843	Gastric restrictive procedure, without gastric bypass, for morbid obesity; other than vertical-banded gastroplasty	\$ 1,301
43845	Gastric restrictive procedure with partial gastrectomy, pylorus-preserving duodenoileostomy and ileoileostomy (50 to 100 cm common channel) to limit absorption (biliopancreatic diversion with duodenal switch)	\$ 1,980
43846	Gastric restrictive procedure, with gastric bypass for morbid obesity; with short limb (150cm or less) Roux-en-Y gastroenterostomy	\$ 1,672
43847	Gastric restrictive procedure, with gastric bypass for morbid obesity; with small intestine reconstruction to limit absorption	\$ 1,830
43848	Revision, open, of gastric restrictive procedure for morbid obesity, other than adjustable gastric restrictive device (separate procedure)	\$ 1,954
43860	Revision of gastrojejunal anastomosis (gastrojejunostomy) with reconstruction, with or without partial gastrectomy or intestine resection; without vagotomy	\$ 1,654
43865	Revision of gastrojejunal anastomosis (gastrojejunostomy) with reconstruction, with or without partial gastrectomy or intestine resection; with vagotomy	\$ 1,728
43886	Gastric reconstructive procedure, open; revision of subcutaneous port component only	\$ 375
43887	Gastric reconstructive procedure, open; removal of subcutaneous port component only	\$ 339
43888	Gastric reconstructive procedure, open; removal and replacement of subcutaneous port component only	\$ 474
43999	Unlisted procedure, stomach	Carrier Priced
77002-26	Fluoroscopic guidance for needle placement (eg, biopsy, aspiration, injection, localization device)	\$ 27
74246-26	Radiological examination, gastrointestinal tract, upper, air contrast, with specific high density barium, effervescent agent, with or without glucagon; with or without delayed films, without KUB	\$ 43

NOTE: HCPCS S-codes are not recognized by Medicare, but are used by some commercial plans.

Document Body Mass Index (BMI) as an exact number and not a range. BMI can be documented by billing CPT 3008F and the appropriate ICD-10 Z code. Adding the BMI to the claim helps to decrease the number of chart reviews needed throughout the year and during the HEDIS® collection season. Greater precision in charting the member's BMI will help members achieve or remain at a healthy weight. Appropriate BMI Codes can be found in ICD-10-CM Z68 section.

Surgeon CPT, APC & DRG Codes (continued)

OUTPATIENT FACILITY Hospital Outpatient Department

APC	APC Description	Status	Nat Average Medicare Payment ⁴
5054	Level 4 Skin Procedures [CPT code: 43887]	Q2	\$ 1,726
5055	Level 5 Skin Procedures [CPT codes: 43886, 43888]	T	\$ 3,253
5301	Level 1 Upper GI Procedures [CPT code: 43999]	T	\$ 825
5361	Level 1 Laparoscopy and Related Services [CPT code: 43659, 43773]	J1	\$ 5,212
5362	Level 2 Laparoscopy and Related Services [CPT code: 43770]	J1	\$ 9,087
5571	Level 1 Imaging with Contrast [CPT code: 74246]	Q1	\$ 180
5303	Level 3 Upper GI Procedures [CPT code: 43772, 43774]	J1	\$ 3,261
N/A	Inpatient Only [CPT codes: 43644, 43645, 43775, 43843, 43845, 43846, 43847, 43848, 43860, 43865]	C	Inpatient Only
N/A	Code 43843 is excluded, not payable by Medicare.	C	Inpatient Only

Freestanding Ambulatory Surgery Center

CPT CODE ²	Description	Nat Average Medicare Payment ⁴
43774	Laparoscopy, surgical, gastric restrictive procedure; removal of adjustable gastric restrictive device and subcutaneous port components	\$ 1,501
43886	Gastric reconstructive procedure, open; revision of subcutaneous port component only	\$ 1,694
43887	Gastric reconstructive procedure, open; removal of subcutaneous port component only	\$ 899
43888	Gastric reconstructive procedure, open; removal of subcutaneous port component only	\$ 1,694

INPATIENT FACILITY

DRG	Description*	Average Length of Stay (Days) ⁵	National Average DRG Payment ⁵
619	O.R. procedures for obesity with MCC	2.8	\$ 19,836
620	O.R. procedures for obesity with CC	1.7	\$ 11,562
621	O.R. procedures for obesity without CC/MCC	1.3	\$ 10,667
987	Non-extensive O.R. procedure unrelated to principal diagnosis with MCC	7.8	\$ 22,763
988	Non-extensive O.R. procedure unrelated to principal diagnosis with CC	4.2	\$ 11,636
989	Nonextensive O.R. procedure unrelated to principal diagnosis without CC/MCC	2.1	\$ 7,562

NOTE: FY 2023 is effective October 1, 2022 for Inpatient Hospital DRGs. ICD-10 codes are grouped into Diagnoses Related Groups (DRG s) for Medicare reimbursement using a patient's diagnoses, procedures performed, age, sex and discharge status, among other factors. One DRG per patient is assigned to each inpatient stay. Some providers may be paid based on a methodology which differs from the standard MS-DRG calculation reflected in the amount shown (i.e., rural referral centers, hospitals in the state of Maryland).

*CC stands for Complications and Comorbidities while MCC refers to Major Complications and Comorbidities. These are a measure of the severity of an illness indicating additional diagnoses present on a case that may increase the expected resource consumption beyond that of the same case without a CC or MCC under the current Medicare definition. Whether a complication or comorbidity is classified as a CC or MCC is defined by Medicare.

Surgeon HCPCS Codes: SUPPLY CODES - BAND ADJUSTMENTS

A4208	Syringe with needle, sterile 3cc, each
A4215	Needle, sterile, any size, each
J7030	Infusion, normal saline, solution 1,000cc
J7040	Infusion, normal saline
J7050	Infusion, normal saline, solution 250cc

1. ICD-10 Procedural Coding System (ICD-10-PCS) is developed and maintained by the Centers for Medicare and Medicaid Services (CMS). 2. All Current Procedural Terminology (CPT) five-digit numeric codes, descriptions, numeric modifiers, instructions, guidelines and other material are copyright 2022 American Medical Association. 3. CY 2023 Revisions to Payment Policies under the Physician Fee Schedule and Other Revisions to Part B (CMS-1771-F, Vol 87, No. 222; November 18, 2022); Addendum B. All MPFS Fee Schedules calculated using CF of \$33.8872 effective January 2023. 4. CY 2023 Changes to Hospital Outpatient Prospective Payment and Ambulatory Surgical Center Payment Systems and Quality Reporting Programs (CMS-1771-F, Vol. 87, No. 225; November 23, 2022); Addendum B and Final ASC Addenda AA. 5. Medicare Inpatient Prospective Payment System Final Rule [CMS-1771-F], Federal Register (Vol. 87, Issue 163), August 10, 2022; Final: National Average DRG Payment.
