

ATTUNE™ KNEE SYSTEM

PATIENT EDUCATION RESOURCE PACKET

As part of the commitment of DePuy Synthes Companies to you and the patients you serve, we are pleased to provide you with this ATTUNE™ Knee System patient education resource packet. This packet provides a range of materials that you may find helpful in your patient education and engagement activities.

The following materials are provided to you in the accompanying folders:

- Patient brochures for ATTUNE Knee and general knee replacement
- Fact sheets related to osteoarthritis and ATTUNE Knee
- ATTUNE Knee sample website content
- Images and logos used with the ATTUNE Knee
- ATTUNE Knee educational in-office poster
- Knee replacement wall chart
- ATTUNE Knee patient videos for use in digital channels
- Additional ATTUNE Knee promotional materials like billboard artwork and digital banner ads

Physical copies of many items, in addition to other patient education items such as bone models, may be requested through your DePuy Synthes sales consultant. New resources on ATTUNE Knee will continue to be added to our [Patient Education Resource Center](#). You can also direct patients to the [ATTUNE Knee patient website](#).

Please note that this folder is read-only, so you can only pull content from it, not save to it.

We hope you find these resources helpful in your patient education and engagement efforts.

Sincerely,

DePuy Synthes Companies

The materials provided here by DePuy Synthes Companies are intended for use by health care professionals and health care facilities to assist with patient education. Some of the materials provided are templates that include paragraphs to be completed by the user. Other portions of the templates, as well as other materials provided, contain text developed by DePuy Synthes Companies. The user agrees not to modify this. Completion of the templates and final implementation of the materials are the responsibility of the user. Every patient is different and individual results vary. These results may not be typical. Not all patients are candidates for joint replacement. All surgeries carry risks. Please refer to the package insert for a complete list of indications, contraindications, precautions, and warnings. For further information on DePuy Synthes products, please contact your local DePuy Synthes representative.
